

## KNE Epoxy Painted Terminal Head

Labfacility are the UK's leading manufacturer of Temperature Sensors, Thermocouple Connectors and associated Temperature Instrumentation and stockings of Thermocouple Cables. The Company has been trading since 1971 and is ISO9001 accredited.

Many alternative types of terminal heads are available to meet the requirements of various applications.

Variations exist in size, material, accommodation, resistance to media, resistance to fire or even explosion and in other parameters.

KNE Epoxy Painted Terminal Heads offer robust protection for electrical connections, with the added benefit of an epoxy coating that enhances durability and corrosion resistance.

These terminal heads are ideal for a variety of applications, including industrial automation, chemical processing, food and beverage, and outdoor installations.

Proper installation and regular maintenance ensure reliable performance and long-term protection of sensitive electrical components.

### Specifications

## Specifications

<b>Product Code</b>	XE-3837-001
<b>Head Type</b>	KNE Standard Head
<b>Material</b>	Aluminium Epoxy painted
<b>Cable Entry</b>	M20 x 1.5mm
<b>Fixing (Centres)</b>	33mm & 40mm
<b>Max. Temperature</b>	170°C
<b>IP Rating</b>	IP67 rated
<b>Process Entry</b>	1/2 " BSPP
<b>Cap Retaining Type</b>	Screw cap and retaining screw
