

DishTemp Blue Dishwasher Thermometer

Labfacility are the UK's leading manufacturer of Temperature Sensors, Thermocouple Connectors and associated Temperature Instrumentation and stockings of Thermocouple Cables. The Company has been trading since 1971 and is ISO9001 accredited.

DishTemp® Blue Bluetooth® LE dishwasher thermometer

- Simulates maximum plate surface temperatures
- Waterproof to IP66
- HACCP compatible
- FREE 1-point traceable certificate of calibration at 71°C

Now available as a Bluetooth® model the DishTemp® Blue Dishwasher Thermometer transmits temperature data to your iOS, Android or Bluetooth wireless device via a secure connection of up to 6 metres.

Specifically designed to save time, paper and eliminate human error when recording temperature cycles. The DishTemp Blue simulates a plate as it's cleaned and sanitised in a commercial dishwasher, accurately recording the maximum surface temperature at the touch of a single button, eliminating the need for costly and inaccurate test strips and stem thermometers that do not stay in place or record the surface temperature of a plate.

Built to survive daily use in professional kitchens, the DishTemp Blue dishwasher thermometer indicates temperature over the range of 0 to 90 °C with a resolution of 0.1 °C/°F and an accuracy of ±0.5 °C.

Incorporating a durable water-tight seal, the DishTemp Blue is supplied complete with a FREE 1-point traceable certificate of calibration @ 71°C

Specifications

Specifications

Product Code	XE-3935-001
Model	DishTemp Blue Dishwasher Thermometer
General Description	Flexible sheath can be bent/formed to suit many applications and processes
Type	Celsius/Fahrenheit
Communications Protocol	Bluetooth LE
Accuracy	+/-0.5°C
Resolution	0.1 °C/°F
Battery	3 volt CR2032 lithium coin cell - 40 hours life
Connector Type	Plug
Connector Size	Miniature (moulded-on)
Dimensions	14 x O127mm
Element/hot junction	Single element, grounded junction offering fast response
Display Type	Custom LCD
Max. Temperature	+260°C (Moulded-on plug +110°C)
Min. Temperature	-50°C
Input / Ranges	6 metres
Temperature Range	0 to 90°C

Probe Diameter	3.3mm
Probe Length	80mm
Probe Material	Needle point tip, 316 stainless steel
Weight	120 grams
Sensor Type	Mineral insulated
Calibration	FREE 1-point traceable calibration certificate at 71°C
Standards Met	IP66
Thermocouple Type	K
Termination Type	Miniature moulded flat pin plug, colour coded 'green' in accordance IEC specification
Construction	ABS plastic
Guarantee	1 Year
